Dynamint travels faster and deeper, providing longer lasting effect.

Dynamint is regarded by many leading sportsmen and physios to be the deepest and fastest balm.

This is because Dynamint is specially formulated, on a state of the art substrate, to provide rapid penetration of the epidermis via osmosis.

Its special formulation gives Dynamint its unique penetrative performance and allows it to get to work almost instantaneously and provide a longer lasting effect.

## **Question: What's in Dynamint ?**

**Answer: Dynamint is comprised of natural, essential and precious oils, blended as a ultramicro-emulsion.**

### **Peppermint** (Mentha Piperata - Finest Californian Peppermint)

What does it do ?

Increases circulation, generates heat and reduces swelling. Effective circulation stimulant with localized cooling and toning properties.

University proven to enhance concentration, improve co-ordination and sharpen reflex.

### **Calendula or Marigold** (Calendula officinalis)

What does it do ?

Increases circulation, anti-inflammatory properties, helps resolve swelling and bruising. Effective skin toner.

### **Eucalyptus** (Eucalypti aetheroleum)

What does it do ?

Rubefactant and skin conditioner, natural astringent. Skin invigorator and penetrant.

Mood and concentration enhancer.

### **Teatree** (Melaleuca alternifolia)

What does it do ?

Skin conditioner, soothing and disinfecting. Capable of penetrating deep into the skin with anti-inflammatory, disinfectant, analgesic and wound healing qualities.
